

The “Historic” Village Diner

The “Historic” Village Diner is significant as a distinctive example of early-twentieth century American roadside architecture. It embodies distinguishing characteristics of the type and period in its streamlined metal railroad dining car inspired design, which was intended to evoke, at once, the ideas of travel, food cleanliness and modern efficiency. The diner is additionally significant as a representative example of a Silk City Diner, a highly popular prefabricated dining car line manufactured by the Paterson Vehicle Company of Paterson, New Jersey from the 1920’s to the 1950’s. Moved several times to adapt to changing travel patterns, the history of the diner also recalls the growth and development of the regional transportation system during the early automotive age. After years of catering to travelers on Dutchess County’s major highways, the “Historic” Village Diner, here on this spot since 1950, enjoys continued popularity as a community-oriented restaurant and the focal point of much local nostalgia. A place where new and old friendships happen, where people find love, where a friendly face always greets you, and a place where amazing food is always served. Our diner has been featured and recognized all over the world. These are just a few of our most recent accomplishments: The Diner is home of one of the Chefs that appeared on “The Blue Plate Fate” on the TV Show Chopped, Season 32, Episode 8, Country Living Magazine: Article Top 20 Diners in the Country, Mr Porter.com, a European online magazine: Article Top 5 Diners in the World, Hudson Valley Magazine: Featured Article 10 Fine Diners Feature Article in Japans inflight magazine, Wingspan, article on the Iconic Diner serving Steak & Eggs for breakfast, something they do not do in Japan.

We would like to thank you for all the past, present, and future years of support. We will continue to serve only the finest of foods we can and continue to give our friends and patrons the best service possible.
